

**Atheniella delectabilis** (Peck) Lüderitz & H. Lehmann, comb.nov.

**IF556814**

Basionym: *Agaricus delectabilis* Peck, *Ann. Rep. N.Y. St. Mus. nat. Hist.* **27**: 93 (1875) [1874]

**Atheniella ulmariae** H. Lehmann & Lüderitz, sp.nov.

**IF556806**

For diagnosis see Die Gattung *Hemimycena* in Schleswig-Holstein (Kiel): 290 (2018).

Holotype colln Lehmann 25112017 deposited in the private herbarium of H. Lehmann, Kiel-Russee, Schleswig-Holstein, Germany.

**Hemimycena delectabilis f. grisea** Lüderitz, f.nov.

**IF556812**

Near *Hemimycena delectabilis* with greyish colours (also in young basidiomata), shorter spores (5–7.5 µm), non-decurrent lamellae and clearly mycenoid habit. The smell is nitrous.

Holotype colln Lüderitz ML-231-12 deposited in the private herbarium of M. Lüderitz, Eutin-Sibbersdorf, Schleswig-Holstein, Germany.

**Hemimycena delectabilis f. megaspora** Lüderitz, f.nov.

**IF556813**

Near *Hemimycena delectabilis* with large spores (up to 15 µm), generally tall cystidia with long neck, very strong nitrous smell.

Holotype colln Lüderitz ML 116-17 deposited in the private herbarium of M. Lüderitz, Eutin-Sibbersdorf, Schleswig-Holstein, Germany.

**Hemimycena gracilis var. reductata** H. Lehmann, var.nov.

**IF556810**

For diagnosis see Die Gattung *Hemimycena* in Schleswig-Holstein (Kiel): 160 (2018).

Holotype colln Lehmann 30112017 deposited in the private herbarium of H. Lehmann, Kiel-Russee, Schleswig-Holstein, Germany.

**Hemimycena ignobilis var. liliputeana** H. Lehmann, var.nov.

**IF556811**

For diagnosis see Die Gattung *Hemimycena* in Schleswig-Holstein (Kiel): 152 (2018).

Holotype colln Lehmann 24122016 deposited in the private herbarium of H. Lehmann, Kiel-Russee, Schleswig-Holstein, Germany.

**Hemimycena kamkeae** H. Lehmann & Lüderitz, sp.nov.

**IF556805**

For diagnosis see Die Gattung *Hemimycena* in Schleswig-Holstein (Kiel): 84 (2018).

Holotype colln Lehmann 13112017 deposited in the private herbarium of H. Lehmann, Kiel-Russee, Schleswig-Holstein, Germany.

**Hemimycena lactea var. graminiphila** H. Lehmann, var.nov.

**IF556808**

For diagnosis see Die Gattung *Hemimycena* in Schleswig-Holstein (Kiel): 235 (2018).

Holotype colln Lehmann 14122015 deposited in the private herbarium of H. Lehmann, Kiel-Russee, Schleswig-Holstein, Germany.

**Hemimycena pseudolactea f. platyspora** H. Lehmann, f.nov.

**IF556807**

For diagnosis see Die Gattung *Hemimycena* in Schleswig-Holstein (Kiel): 244 (2018).

Holotype colln Lehmann 08102012 deposited in the private herbarium of H. Lehmann, Kiel-Russee, Schleswig-Holstein, Germany.

**Hemimycena tenella** H. Lehmann, sp.nov.

**IF556809**

For diagnosis see Die Gattung *Hemimycena* in Schleswig-Holstein (Kiel): 204 (2018).

Holotype colln Lehmann 24122016 deposited in the private herbarium of H. Lehmann, Kiel-Russee, Schleswig-Holstein, Germany.

**Phloeomana speirea f. alcalina** Lüderitz & H. Lehmann, nom.nov.

**IF556803**

Replaced synonym: *Mycena delectabilis* var. *bispora* Kühner, in Kühner & Valla, *Trav. du Laboratoire de 'La Jaysinia' a*

*Samoëns* Haute-Savoie: 4: 67 (1972).
